We want fair and reasonable action for our farmers now!

We attend inquiries, write press releases, join other member groups

### **SO WHY DO WE VOLUNTEER?**

Because we are passionate people who want a sustainable region for future generations and well...someone's gotta do it! We have kids, we have businesses, we live here, work here, some of us are farmers ourselves and we know our agricultural industry is what has made this region so successful and we want it to continue for future generations.

### **BUT HOW CAN WE MAKE CHANGE HAPPEN?**

It's about power in numbers, not dollars. We can't do it alone. It's as simple as that. By joining and supporting us, we can have a strong support base to help make change occur for farmers like yourself.
